Safety Signs Symbol

Information on International Standard Safety Color and Safety Signs

- To standardize a system of giving safety information that relies as little as possible on the use of words to achieve understanding.
- Continued growth in international trade, travel and mobility of labour requires a common communications method for safety information.
- Lack of standardization may lead to confusion and the risk of accidents. This International standard prescribes to use of specific colours, geometric shapes and graphical symbols for the of safety sign to be used as an integral part of any accident prevention, emergency provisions and risk reduction programme.

Safety Signs and Signals

Health and Safety Regulations

- This guidance is for employers, duty holders and others who have responsibility for the control of workplaces, sites and premises.
- It is also for those operating equipment that requires verbal and/or non-verbal communications.
- It sets out what you should do to comply with the Health and Safety.
- Safety signs and signals are required where, despite putting in place all other relevant measures, a significant risk to health and safety of employees and other remains.
- Signs must be clear and legible, and should be used to identify actions that are prohibited (eg no access), safeguards that must be followed (eg ear protection must be worn), warning of a hazard (eg corrosive material) and to direct towards fire exits/ equipment or first-aid equipment.

Five Main Type of Safety Signs

Five main type of safety signs which denote different aspects of health and safety in the workplace:-

A **BLUE** circle with white symbol.

Meaning: Must / Obey / Do / Follow instruction show

Purpose: Indicate that a specific course of action must be taken

A **RED** Circular band with diagonal cross bar on a white background, the symbol within the circle to be black.

Meaning: Do not / Stop / Prohibition

Purpose: To indicate that a certain behavior is prohibited

A **YELLOW** triangle with black border and symbol within the yellow area.

Meaning: Careful / Caution / Danger / Warning / Beware

Purpose: To warn any type of hazard

A **GREEN** oblong or square with a white symbol or text.

Meaning: First Aid / The safe way / Where to go during emergencies

Purpose: Instructional & motivational safety signs remind employees regularly & reduce workplace accident

A **RED** oblong or square with white symbol.

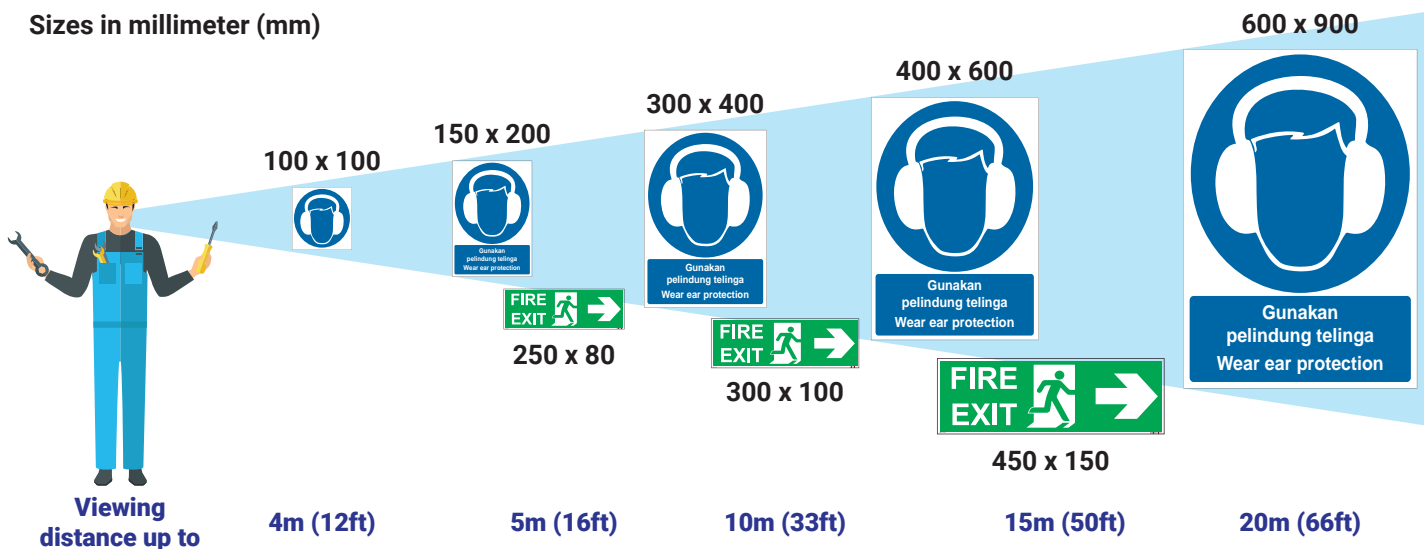

Meaning: Type of fire fighting equipment / location of fire fighting equipment.

Purpose: To describe the location of fire fighting equipment

Viewing Distance

The main factor for a good visibility of a safety sign is the size of the sign in proportion to the distance it is viewed from.

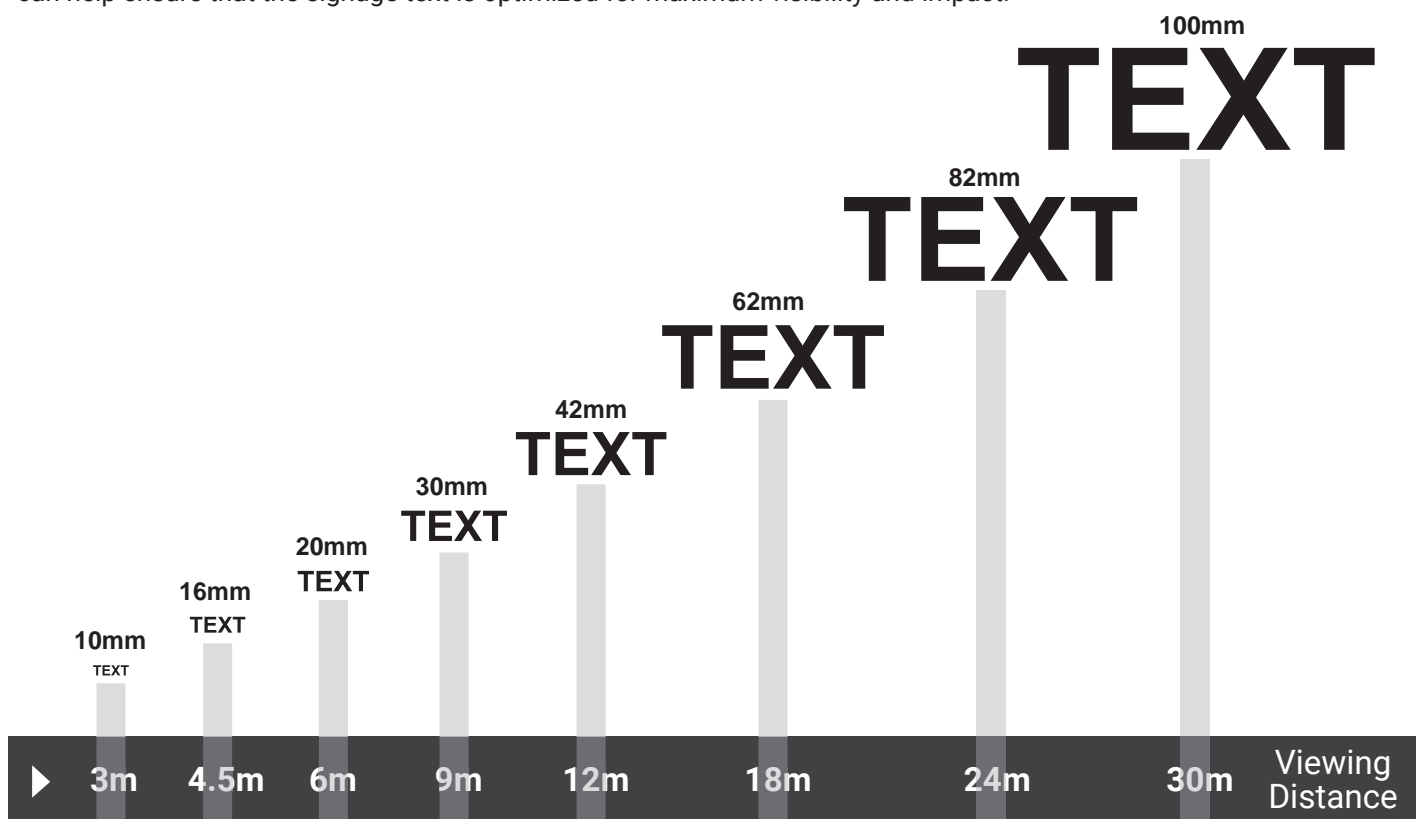

Sizes in millimeter (mm)

*Under favourable condition such as a well-lighted and visible area, and that text can be read without any obstruction.

Text Sizes

Signage text is the written information on signs. It's important to keep in mind that these guidelines are general recommendations, and the specific requirements may vary based on factors such as the type of font, contrast with the background, and the visual characteristics of the target audience. Conducting tests or consulting with a graphic designer can help ensure that the signage text is optimized for maximum visibility and impact.

Signage materials can be broadly categorized into two types: rigid and flexible. The choice between rigid and flexible materials depends on factors such as intended use, location, and aesthetic preferences, allowing for tailored selections that balance durability and adaptability in signage applications.

We are able to manufacture from various material and to exacting standards according to your requirement.

INTERNATIONAL MARITIME ORGANIZATION SIGNS (IMO SIGNS)

Shipping is perhaps the most international of all the world's great industries - and one of the most dangerous. It has always been recognized that the best way of improving safety at sea is by developing international regulations that are followed by all shipping nations.

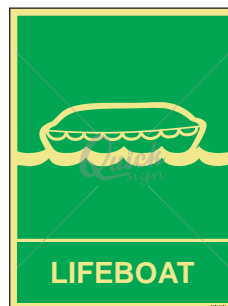

The International Maritime Organization is a specialized agency of the United Nations which is responsible for measures to improve the safety and security of international shipping and to prevent pollution from ships. It is also involved in legal matters, including liability and compensation issues and the facilitation of international maritime traffic.

Sign giving a general safety message, obtained by a combination of a colour and geometric shape and which, by the addition of a graphical symbol, gives a particular safety message. Signs in this standard are categorized according to their function as follows:

- a) Escape signs which provide escape route identification.
- b) Emergency equipment signs which provide use and location of first aid facilities and portable safety equipment.
- c) Life-saving systems and appliances signs which provide use and location of life-saving systems and appliances.
- d) Fire-fighting equipment signs which provide use and location of fire-fighting equipment.
- e) Prohibition signs which provide prohibited actions.
- f) Hazard warning signs which provide identification of hazards to avoid.
- g) Mandatory action signs which provide mandatory notices and instructions.
- h) Safety and operating instructions for trained personnel.

Temporary Road Signs

Temporary signs serve the crucial purpose of alerting individuals to temporary hazards or providing information and guidance regarding temporary traffic arrangements. These signs, which can be regulatory, warning, or informatory, play a vital role similar to permanent signs. It's essential to remain vigilant for temporary signs, even on familiar roads. Typically mounted on portable stands, these signs may also be affixed to posts like their permanent counterparts.

In addition to their general utility, temporary signs find application in various scenarios. They are employed during major events or when a section of the road is temporarily closed due to emergencies or road works. Moreover, temporary signs prove valuable for alerting individuals to temporary road conditions and facilitating short-term traffic control by law enforcement.

A large industrial warehouse filled with metal parts, with a yellow caution sign in the foreground. The sign is tilted and features the text 'CAUTION HAZARDOUS MATERIAL STORAGE AREA' in bold black letters. The background shows a complex steel structure with many levels and beams, and a bright light source on the left side creating a lens flare effect.

Warehouse Floor Marking Safety

Warehouse floor marking, or striping, involves using epoxy paint or tape along with safety signs to create visual cues in your facility. It divides spaces, highlights hazards, outlines workstations and storage areas, directs traffic, and communicates safety information. These cues enhance navigation, contributing to improved warehouse efficiency.

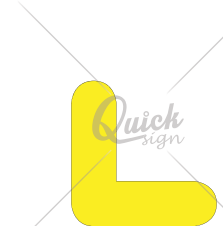

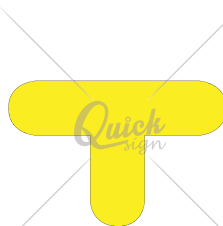

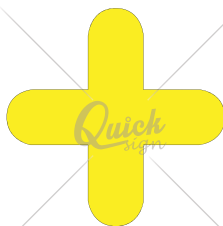

Why is warehouse floor striping essential?

Here are some key reasons why many warehouses use industrial floor markings:

- Warehouse Organization
- Lean and 5S Methodologies
- Traffic Direction
- Warehouse Personal Protection Equipment (PPE)

- Flexible safety barrier system which can be connected together to form a longer barrier
- Additional panel connected together whenever needed
- Due to the flexibility to add on additional panels, this modular safety barrier is ideal for a wide range of barricade applications
- Easy to assemble. Simply connect two panels by slot in side-by-side
- Lightweight and convenient to carry around for deployment and storage
- Customized messages on the panels are available
- Optional storage bag is available for easier carriage and storage

International Paper Sizes

The A series paper sizes, as per the ISO 216 standard, are presented in both millimeters and inches in the table located beneath the diagram (with centimeter measurements obtained by dividing the millimeter value by 10). On the bottom left, the A Series paper size chart visually illustrates the relationships between sizes, illustrating that A5 is half the size of A4 paper, and A2 is half the size of A1 paper.

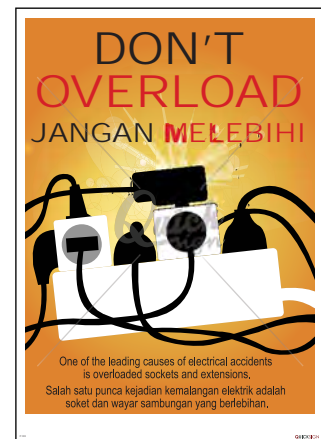

Selecting a poster is simplified when choosing based on standard paper sizes, not only making it more straight forward and also universally comprehensible.
